## About Me

Tyler is a talented designer who prides himself on his ability to anticipate what a user will best respond to on a website or app. This aptitude, coupled with his knowledge of modern front end languages such as HTML5, CSS3, JavaScript and JS frameworks, enables Tyler to bring these ideas to life.

He is as passionate about design as he is about Technology, he strives to unite the two regularly with his work as a ui / ux designer, and all around computer enthusiast.

# MY EXPERIENCE

I have completed 3 years of study at Humber College in the Web Design and Interactive Media program.

I have experience with Adobe CC, HTML, CSS, Java Script and jQuery as well as other web frameworks

In College I was part of a team that was awarded a prize by supplying a winning design to the Technical Standards and Safety Association

Outside of College I have successfully established several websites for clients

You can take a look at my work at my website
